

Making Precision Statements

Define the Problem

- What
- Where
- When
- Who
- Why
- What other information is needed?

Define the Solution

- Prevention
- Teaching
- Reward
- Corrective Consequences
- Monitoring

Building an Action Plan

1. What systems are problematic?
2. What is the most effective use of our resources to address this problem?
3. Build Solutions through an Action Plan:

How can we prevent the problem?	What do we need to teach the students?	How can we recognize the + behavior?	How can we extinguish & correct the - behavior?	How will we monitor progress?
