CLS EQUITY INSTITUTE 2018

Focusing on deep-level equity implementation at the system level
WWW.CLSTEAM.NET

An explicit commitment to championing equity is essential for effective school leadership. Numerous workshops and institutes focus solely on professional learning and/or data analysis. Sustainable implementation of deep-level equity policy requires more.

This 2-day institute focuses on deep-level equity implementation at the system level (structures, policies, and procedures), requiring bold and mindful leadership practices. Infused with experiential activities and specific data dives, the CLS Equity Institute will guide district leadership teams through a framework and implementation strategy for effecting profound and sustainable change.

JULY 23RD-24TH 2018

INTENDED AUDIENCE:
District Leadership Teams
